

PRODUCT REVIEWS

NATURALLY GRIT-FREE

Advanced Microderm DX system uses all-natural baking soda for microdermabrasion. The DX is a custom-built, quiet machine featuring crystal accelerator technology, crystal-free, diamond-coated Titan Tip solution and a 10-year warranty option. Contact: 877.763.4861 or advancedmicroderm.com

BRIGHT EYES

Dermatologic Cosmetic Laboratories' new Peptide Plus Eye Treatment contains three complexes—peptide, hydrating and antioxidant—to target signs of aging around the eye. The sheer formula absorbs quickly and is available exclusively to physicians, dermatologists and plastic surgeons. Contact: 800.552.5060 or dclskincare.com

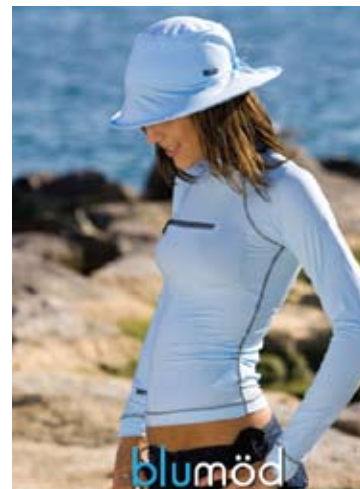

NATURAL REMEDY

Adorage MD Powerful 30% Gel offers the highest concentration of arnica in a gel form. Plastic surgeons and dermatologists recommend it to patients after undergoing laser procedures, chemical peels, face-lifts and other invasive treatments to reduce inflammation, soothe muscle aches and heal wounds and bruises. Contact: 201.886.7000 or adoragemd.com

LIGHT FASHION

SunSoul blumod and yelomod products are made with a special combination of microfiber nylon and spandex, which blocks out harmful UV rays and transmits the healthy rays to the skin. Blumod delivers the blue wavelength of light, which helps clear acne, while yelomod delivers the yellow wavelength of light, which rejuvenates skin by acting as a collagen remodeler. Contact: 866.414.7685 or sunsoul.com

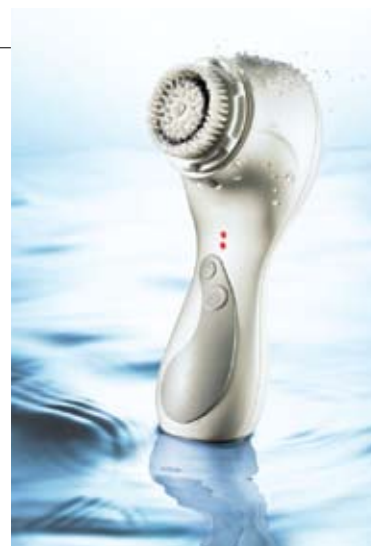

BRISTLE ACTION

The MTS Roller by Clinical Resolution Labs is a unique Type 1 supplemental medical tool that aids the treatment of various skin conditions. The nonablative tool applies 200 very fine "bristles" that produce temporary meso-channels that effectively and subtly injure the skin to stimulate collagen and elastin production. Contact: 877.566.9687 or microneedle.com

GOOD VIBRATIONS

New features of the Clarisonic PRO include two lower speeds for the face and one higher speed for the neckline and body, as well as a charging indicator light. Created by Pacific Bioscience Laboratories, the device is easy to control and features gentle sonic vibrations that deeply cleanse pores, which helps reduce the appearance of fine lines and wrinkles. It's available exclusively to skincare professionals. Contact: 888.525.2747 or clarisonic.com

PRODUCT REVIEWS

CHEMICAL-FREE PROTECTION

EltaMD UV Physical is a new chemical-free sunscreen that offers broad-spectrum protection and is formulated especially for sensitive skin. It uses microfine zinc oxide and titanium dioxide to make a sunscreen that glides on easily and absorbs quickly without leaving a white residue on the skin. Contact: 800.633.8872 or elta.net

PEPTIDE POWER

Pentapeptide Facelift contains peptides that act as antiglycating agents to block proteins from attaching to sugars, keeping collagen and elastins in their free form. This antiglycating effect gives skin elasticity, softness and a firmer look. Contact: 800.951.7005 or halecosmeceuticals.com

HAIR REPAIR

The Hair Loss Control Clinic is a worldwide leader in laser hair loss treatment, with its comprehensive line of hair loss lasers and products. It offers turnkey hair loss clinics and treatment programs including patented all-natural products, home lasers and prescription-strength minoxidil. Contact: 877.HLCC.123 or hlcc123.com

FILL'ER UP

Bio Jouvance Paris Bio Matrix Filler is a noninvasive dermal filler that is formulated with hyaluronic acid to correct facial wrinkles and folds. It comes in two forms: serum, which is used to prep the skin for treatment; and cream, which complements the serum by sealing the product within. Contact: 800.272.1716 or biojouvance.com

SPOT ON

Lasering USA MiXto SX CO₂ employs an innovative "quadrant" fractional technology and a tightly focused beam. It's the first medical laser to offer MicroSpot technology combined with a high-speed scanner to deliver .3mm spots in continuous wave mode. Contact: 866.471.0469 or laseringusa.com

INSTANT TIGHTENING

Radiancy introduces a new handpiece for the delivery of painless skin tightening. Designed for use with its flagship system, the Mistral, the device features a large spot size (22x50mm) and comes with three small area adaptors, allowing operators to treat almost any size area quickly and affecting only the targeted area. It doesn't produce any demarcation lines, making the device compatible with most skin rejuvenation procedures. Contact: 845.398.1647 or radiancy.com

PRODUCT REVIEWS

SOFT AS SILK

Colorlab Private Label's new Mineral Cream to Powder foundation contains two active ingredients: dermaxyl, for its antiaging effect, and tripeptide, which stimulates collagen reproduction. Available in 10 shades, the foundation glides on effortlessly as a cream, then turns into a silky, long-lasting powder. Contact: 800.790.2417 or colorlabprivatelabel.com

BODY SCULPTING

DermaConcept's Environ Body Profile contains ingredients that help eliminate excess fluids and strengthen the moisture barrier properties of the skin. The new formula contains Pronalen Modeling, which has antioxidant and smoothing properties; guarana, which aids in the drainage of fatty overloads; and Myriciline, which is involved in three metabolic processes related to fat storage. Contact: 508.539.8900 or dermaconcepts.com

NUMBING CREAM

ESBA Laboratories has added a new 5% Topicaïne 4 oz. gel to its product line. The gel is a non-prescription topical anesthetic that is easily applied and provides long-lasting pain relief. Its efficacy has been proven in independent studies comparing leading topical anesthetics. Joshua P. Fogelman, MD, of the Department of Dermatology of New York University, said of the product, "Topicaïne was the best performer overall." Contact: 800.677.9299 or topicaine.com

LIGHTING THE WAY

The Tanda Skincare System is a non-invasive light therapy device that's FDA cleared to treat acne and aging skin. Made by Pharos Life, the portable device includes two interchangeable solutions: Tanda Clear, a 414nm blue LED treatment that's clinically proven to kill the *P. acnes* bacterium; and Tanda Regenerate, a 660nm red LED treatment that stimulates collagen production and diminishes the appearance of wrinkles. Contact: 877.651.1177 or tandaskincare.com

WRINKLE RELEASER

Nutra Luxe MD Plus Intensive Face Lift combines four active ingredients known to fight wrinkles and renew skin cells. Ingredients include: myoxinol LS, argireline, matrixel and retinol. These ingredients are combined with encapsulated neuropeptides and biopeptides to maintain their potency. Contact: 239.561.9699 or nutraluxemd.com

ACNE BEGONE

DermaStart's Clear Choice Clinical Spot treats acne lesions, prevents future follicular blockage, aids in healing and resurfaces the skin. It contains vitamins A and C, benzoyl peroxide, a blend of acids, green tea and more. Sunscreen is recommended after use. Contact: 866.589.2949 or dermastart.com
